Overlapping with my despair was a much larger
crisis - the crash of the U.S. economy. Credit
disappeared in a puny way, wings and nose
of being. No safety net, no illusions. What was assumed
to be sanity was not, and was no longer an
indecible expectation. My own economic horizon
was peppered in sync with this - I could envision
The K-Book, as my life as a working artist has
been fully vested and invested, in making ART.
